THE SKIN, etc. THE SKIN, etc.

The IRON being absorbed by the blood, and thus circulating through the whole system, no part of the body can escape their truly wonderful influence.

The experience of thousands daily proves that no preparation of Iron ean for a moment be compared with it. Impurities of the blood, depression of vital energy, palo and otherwise eickly complexions indicate its necessity in almost every conceivable case. In all cases of female dehility (finor alhus, chlorosis, etc.), its conceivable case. effects are delightfully renovating. No remedy has ever been discovered, in the whole history of medicine, which exerts such prompt, happy, and fully restorative effects. Good appetite, complete digestion, rapid acquisition of strength, with an unusual disposition for notive and cheerful exercise, immediately follow its use.

As a grand etomachic and general restorative it has no superior and no substitute. R. B. LOCKE & CO., General Agents. 339 BROADWAY, N Y. N.B.-The above is a fac-diable of the label on each box.

Our stay bers will be limited to two or three days when we shall all leave for Cairo, some six home' ride distant, per rail \*ay. Previous to that, we expect to visit the Imperial Palace, the Bizzar, and one or two morques if practicable. What our course will be after noing up Coro, is quite uncertain, it being generally lhought too late for a frip up the Nile. The trimate here is delightful, lust cool enough to be pleasant. The natives are many of them barefooted and their garmente thin and light, but, in our carriage ride to-day, we found overcats quite confortable. The sun, however, is very hot and we shield ourselves from ite rays as much as practicable. The shubs and flowers are quite different to what we have been accustomed, but many of them are exceedingly beastiful. Nothing can be more graceful and majestle than the numerous groves of pulms.

I neglected to say that we left two of our American friends at Malia, which red read our number to welve. On arrival here, we had an informal organization, Dr. Adems being elected Presiden and your hopeful brother Treasurer and General Financial Agent. We shall try and keep together if we can adopt a ronte to which nil will egree, as it is both safer, and cheaper to go in a siarge company. Of the twelve, four are clergymen and four ladies. We are having a good time of it and constitute a merry parly.

A RETURN TO COMMON SENSE—The Philadelphia Bulletin easys that a discided reform to respect to ladies' honored by first and the Bro' dignagian proportions of tha year 1825, when the "faces" of a lidy'e hat thut all but a front view of the physicegnomy of his wearer, and when it shot up at az angle of 50 digres for a distance of two or three feet from the base of the crowo, the latter dying upward and hackward in a rangent for half a yard or eq., ite enormous altitude being generally as isted by two or three ostrich feathers, which etcod stilly e ect on the summit. But the new etyla is comally enoved from the airy nothing of last yeer. Fashionable ladies are now seen on Chestnut elrect with homele which actually cover the crowne of their heads, and form is ken balo around the rosy chocks of their wearers. In the language of the Seck Markel, honnels are being "bull d," and we look to see them increase in dineusions until they will revive recollections of the days when the terms "skyrakars," "shoot-the m on," and "Dunstables" were applied to colos, all articles of feminine head

in our paper of yesterday that the President ha responded to the call of Gov. Houston with befit ting energy and promptness. The President seeme to have come up to the mark fully. Gov. Honston, as we informed our readers yes terday, recommends the occupation of the right bank of the Rlo Grande by the forces of the United States, as the only effectual means of protecting th Texan frontier; and the President, the despatche say, has ordered Colonel Lee to pursue and capture Cortina and his maranding band, even if he has to do it on Mexican coil, whilst Capt. The measure, as we intimated in our remarks on the Governor's recommendation yeslerday, is e pretty strong nne; but, if we may trust the judgment of those best informed respecting the emergency, not any loo strong. Things have evidently reached such a pass on the Mexican frontier tha enthing short of strong measures will answer the ternational etiquette. Anarchy is not sovereignty any more than mudness is manhood, and has re just claims to be treated with the consideration due to a responsible government. A nation that is too weak to protect life and property is too cantempt hle to cherieh amour propre. It has no right to pr on airs if its neighbors partially and temporaril occupy its territory in self defence.
